SUBJECT INDEX

Abscisic acid
Interactive effect of NaCl salinity and gibberellic acid on shoot growth, content of abscisic acid and gibberellin-like substances and yield of rice (*Oryza sativa* L. var GR-3) 173
Adaxial xylem plate
Vascular morphology of stipe and rachis in some western Himalayan species of *Pteris* Linn. 399
Aerobic degradation
Degradation of α-, β- and γ-isomers of hexachlorocyclohexane by rhizosphere soil suspension from sugarcane 165
Affinities
Distribution of vegetation types in northwest Himalaya with brief remarks on phytogeography and floral resource conservation 263
Air pollution
Changes in the phenolic contents of rice cultivars towards air pollution exposure 107
Ajmalicine
Growth and alkaloid synthesis in cell lines of *Catharanthus roseus* obtained through immobilization of cells and protoplasts 211
Alangium lamarkii
Pollination ecology of *Alangium lamarkii* (Alangiaceae) 195
Alga cultivation
Raft cultivation of *Gracilaria edulis* (Gmel.) Silva 123
Algal assay
Application of algal assay for defining nutrient limitation in two streams at Shillong 361
Alloploid
Cytology of woody members of Rosaceae 17
Amegilla
Pollination ecology of *Moringa oleifera* (Moringaceae) 33
Amitrole
Light activation of enzymes in relation to leaf age in *Vigna unguiculata* (L.) Walp and *Zea mays* L. 225
Ammonia
Effect of L-methionine sulphoximine on the enzymes of nitrogen metabolism in barley leaves 97
Anatomy
Anatomy of the stems of seedling palms 215
Fruit and seed structure in Araceae 61
Anemophily
Reproductive biology of *Plantago* L. III. Floral adaptation to wind pollination in *Plantago lagopus* L. 393
Aneusomaty
Numerical and structural inconstancy in the chromosome complements of *Belamchanda chinensis* Dc. (Iridaceae) 205
Animal dung
Nitrogen fixation by *Candida tropicalis* 351
Apis cerana
Pollen analysis of *Apis cerana* and *Apis florea* honeys from Adikmet area, Hyderabad 183
Apis florea
Pollen analysis of *Apis cerana* and *Apis florea* honeys from Adikmet area, Hyderabad 183
Araceae
Fruit and seed structure in Araceae 61
Artificial inoculation
Modes of entry, establishment and seed transmission of *Peronospora parasitica* in radish 369
Artificial systems
Nutrient acquisition by fungi—the relation between physiological understanding and ecological reality 153
Autoploid
Cytology of woody members of Rosaceae 17

Bacteria
Speculations on niches occupied by fungi in the sea with relation to bacteria 129
Barley
Effect of L-methionine sulphoximine on the enzymes of nitrogen metabolism in barley leaves 97
Effect of carbaryl and 1-naphthol on seedling growth of barley, and on growth and nodulation of groundnut in two soils 11
B chromosomes
Sorghum nitidum (Vahl) Pers., occurrence, morphology and cytology 333
Bees
Pollination ecology of *Moringa oleifera* (Moringaceae) 33
Biomass
Cation budget under terrace agroecosystem in Meghalaya in north-east India 23
Black gram
Effect of cement kiln dust pollution on black gram (*Vigna mungo* (L.) Hepper) 435
Boron deficiency
Boron nutriton of cowpea 311

Bryophyta
A new species of *Jubula* Dumort. from Milam in Kumaon (western Himalaya) 85

Candida tropicalis
Nitrogen fixation by *Candida tropicalis* 343
Nitrogenase activity of diazotrophic strains of *Candida tropicalis* 353
Cap
Anatomy of the stems of seedling palms 215
Capsicum annuum
Intraspecific variation of nuclear DNA in *Capsicum annum* L. 1
Carbaryl
Effect of carbaryl and 1-naphthol on seedling growth of barley, and on growth and nodulation of groundnut in two soils 11
Catalase
Light activation of enzymes in relation to leaf age in *Vigna unguiculata* (L.) Walp and *Zea mays* L. 225
Catharanthus roseus
Growth and alkaloid synthesis in cell lines of *Catharanthus roseus* obtained through immobilization of cells and protoplasts 211
Cation budget
Cation budget under terrace agroecosystem in Meghalaya in north-east India 23
Cells
Growth and alkaloid synthesis in cell lines of *Catharanthus roseus* obtained through immobilization of cells and protoplasts 211
Centella asiatica
Competitive fitness of *Centella asiatica* populations raised from stem cuttings and seedlings 239
Chromosome
Numerical and structural inconstancy in the chromosome complements of *Belamchanda chinensis* Dc. (Iridaceae) 205
Chromosome number
Cytology of hardwood 91
Cement kiln dust
Effect of cement kiln dust pollution on black gram (*Vigna mungo* (L.) Hepper) 435
Combinations
Cyperaceae Indiae Australis Precursores: New species and combinations in *Pycreus* Beauv. 423
Competition
Laboratory experiments on competition between two rhizoplane microfungi *Penicillium chrysogenum* and *Trichoderma harzianum* 375
Competitive fitness
Competitive fitness of *Centella asiatica* populations raised from stem cuttings and seedlings 239
Cytology
Cytology of woody members of Rosaceae 17
Cytomixis in woody species 233
Cytomixis
Cytology of woody members of Rosaceae 17
Cytology of hardwood 91
Cytomixis in woody species 233
Cytological explorations of Indian woody legumes 319

Diatoms
Application of algal assay for defining nutrient limitation in two streams at Shillong 361
Dimorphocalyx
Genus *Dimorphocalyx* Thw. (Euphorbiaceae) in India 285
Discomycetes
Unguicularíella, a new genus of the family Hyaloscyphaceae (Helotiales) 279
Domestication
Effect of domestication on seed packing cost in legumes 337
Drawida assamensis
Microfungal species associated with the gut content and casts of *Drawida assamensis* Gates 379

Eastern Himalaya
Some interesting Gasteromycetous fungi from eastern Himalaya 247
Eleocharis
Cyperaceae Indiae Australis Precursores—A novelty in *Eleocharis* R. Br. and its vegetative anatomy 71
Embryo
Seedborne nature of *Peronospora parasitica* in *Raphanus sativus* 255
Embryology
An embryological approach to the taxonomical status of *Hedyotis* Linn. 31
Enzymes
Boron nutrition of cowpea 311
Epicarpic surface markings
Cyperaceae Indiae Australis Precursores: New species and scanning electron microscopic observations in *Pycreus* Sect. *Muricati* 415
Epilithic-algae
Application of algal assay for defining nutrient limitation in two streams at Shillong 361
Euphorbiaceae
Genus *Dimorphocalyx* Thw. (Euphorbiaceae) in India 285

Fimbristylis
Cyperaceae Indiae Australis precursores—Nova species in *Fimbristyle* (L.) Vahl and their vegetative anatomy 77
Flower
Morphology of the flower and fruit of *Hydrocera triflora* Wight and Arn. emend Venkat. and Dutt—an elucidation 43

Inheritance of polypetalous corolla mutation in sesame 7
Foxtail millet
Occurrence of *Sclerocystis* species in semi-arid soils of India 259
Fruit
Fruit and seed structure in Araceae 61
Morphology of the flower and fruit of *Hydrocera triflora* Wight and Arn. emend Venkat. and Dutt—an elucidation 43
Fungi
Speculations on niches occupied by fungi in the sea with relation to bacteria 129

Gasteromycetes
Some interesting Gasteromycetous fungi from eastern-Himalaya 247
Gates
Microfungal species associated with the gut content and casts of *Drawida assamensis* Gates 379
Geitonogamy
Pollination ecology of *Alangium lamarkii* (Alanngiaceae) 195
Genetics
Inheritance of polypetalous corolla mutation in sesame 7
Gibberellic acid
Interactive effect of NaCl salinity and gibberellic acid on shoot growth, content of abscisic acid and gibberellin-like substances and yield of rice (*Oryza sativa* L. var GR-3) 173
Glutamate dehydrogennase
Effect of L-methionine sulphoximine on the enzymes of nitrogen metabolism in barley leaves 97
Gracilaria edulis
Raft cultivation of *Gracilaria edulis* (Gmel.) Silva 123
Morphological variation in *Gracilaria edulis* (Gmel.) Silva from the Mandapam region, India 383
Groundnut
Effect of carbaryl and 1-naphthol on seedling growth of barley, and on growth and nodulation of groundnut in two soils 11
Growth
Interactive effect of NaCl salinity and gibberellic acid on shoot growth, content of abscisic acid and gibberellin-like substances and yield of rice (*Oryza sativa* L. var GR-3) 173
Growth limitation
Nutrient acquisition by fungi—the relation between physiological understanding and ecological reality 153

Hardwoods
Cytology of hardwoods 91
Hedyotis
An embryological approach to the taxonomical status of *Hedyotis* Linn. 31
Helotiales
Unguiculariella, a new genus of the family Hyaloscyphaceae (Helotiales) 279
Hepaticae
A new species of *Jubula* Dumort. from Milam in Kumaon (western Himalaya) 85
Heterozygosity
Cytological explorations of Indian woody legumes 319
Hexachlorocyclohexane isomers
Degradation of α-, β- and γ-isomers of hexachlorocyclohexane by rhizosphere soil suspension from sugarcane 165
Hilum
Differentiation of the seed coat in *Sesbania speciosa* 301
Honey
Pollen analysis of *Apis cerana* and *Apis florea* honeys from Adikmet area, Hyderabad 183
Hyaloscyphaceae
Unguiculariella, a new genus of the family Hyaloscyphaceae (Helotiales) 279
Hydrocera triflora
Morphology of the flower and fruit of *Hydrocera triflora* Wight and Arn. emend Venkat. and Dutt—an elucidation 43

Immobilization
Growth and alkaloid synthesis in cell lines of *Catharanthus roseus* obtained through immobilization of cells and protoplasts 211
In situ nuclear DNA
Intraspecific variation of nuclear DNA in *Capsicum annum* L. 1
Inner integument
Differentiation of the seed coat in *Sesbania speciosa* 301
Internal inoculum
Seedborne nature of *Peronospora parasitica* in *Raphanus sativus* 255
Inversions
Cytological explorations of Indian woody legumes 319

Jubula himalayensis sp.nov.
A new species of *Jubula* Dumort. from Milam in Kumaon (western Himalaya) 85
Jubulaceae
A new species of *Jubula* Dumort. from Milam in Kumaon (western Himalaya) 85

Key
Cyperaceae Indiae Australis Precursores: New species and combinations in *Pycreus* Beauv. 423

Leaf litter
Litter production and seasonality in tropical moist forest ecosystems of Uttara Kannada district, Karnataka 139
Leaf tissue
Boron nutriton of cowpea 311
Leaf vasculature
Vascular morphology of stipe and rachis in some western Himalayan species of *Pteris* Linn. 399
Legumes
Cytological explorations of Indian woody legumes 319
Effect of domestication on seed packing cost in legumes 337
Litter production
Litter production and seasonality in tropical moist forest ecosystems of Uttara Kannada district, Karnataka 139

Macrosclereids
Differentiation of the seed coat in *Sesbania speciosa* 301
Male sterile
Reproductive biology of *Plantago* L. III. Floral adaptation to wind pollination in *Plantago lagopus* L. 393
Male sterile lines
Stability of pollen sterility in cytoplasmic-genetic male sterile lines in rice 101
Membrane flux
Nutrient acquisition by fungi—the relation between physiological understanding and ecological reality 153
Meristematic
Anatomy of the stems of seedling palms 215
Methionine sulphoximine
Effect of L-methionine sulphoximine on the enzymes of nitrogen metabolism in barley leaves 97
Methyl bromide
Laboratory experiments on competition between two rhizoplane microfungi *Penicillium chrysogenum* and *Trichoderma harzianum* 375
Microfungi
Laboratory experiments on competition between two rhizoplane microfungi *Penicillium chrysogenum* and *Trichoderma harzianum* 375
Microfungal species associated with the gut content and casts of *Drawida assamensis* Gates 379
Monoculture
Competitive fitness of *Centella asiatica* populations raised from stem cuttings and seedlings 239
Moringa
Pollination ecology of *Moringa oleifera* (Moringaceae) 33
Morphological variation
Morphological variation in *Gracilaria edulis* (Gmel.) Silva from the Mandapam region, India 383
Morphology
Morphology of the flower and fruit of *Hydrocera triflora* Wight and Arn. emend Venkat. and Dutt—an elucidation 43
Mutation
Inheritance of polypetalous corolla mutation in sesame 7

1-naphthol
Effect of carbaryl and 1-naphthol on seedling growth of barley, and on growth and nodulation of groundnut in two soils 11
N_2 fixation
Nitrogen fixation of *Candida tropicalis* 351
NH_4^+ repression
Nitrogenase activity of diazotrophic strains of *Candida tropicalis* 343
Natural environment
Nutrient acquisition by fungi—the relation between physiological understanding and ecological reality 153
Natural population
Morphological variation to *Gracilaria edulis* (Gmel.) Silva from the Mandapam region, India 383

Nectar
Pollination ecology of *Alangium lamarkii* (Alangiaceae) 195
New species
Cyperaceae Indiae Australis Precursores: New species and combinations in *Pycreus* Beauv. 423

Niches
Speculations on niches occupied by fungi in the sea with relation to bacteria 129
Nitrate reductase
Light activation of enzymes in relation to leaf age in *Vigna unguiculata* (L.) Walp and *Zea mays* L. 225
Effect of L-methionine sulphoximine on the enzymes of nitrogen metabolism in barley leaves 97
Nitrogenase activity
Nitrogenase activity of diazotrophic strains of *Candida tropicalis* 343
Nodulation
Effect of carbaryl and 1-naphthol on seedling growth of barley, and on growth and nodulation of groundnut in two soils 11
Northwest Himalaya
Distribution of vegetation types in northwest Himalaya with brief remarks on phytogeography and floral resource conservation 263

Nototriby
Pollination ecology of *Alangium lamarkii* (Alangiaceae) 195
Novelty in *Cyperus*
Cyperaceae Indiae Australis Precursores: A novelty in *Cyperus* Linn. and its vegetative anatomy 409
Numerical inconstancy
Numerical and structural inconstancy in the chromosome complements of *Belamchanda chinensis* Dc. (Iridaceae) 205

Oospores germination
Factors affecting germination of *Peronospora parasitica* in radish 113
Oospores production
Production and viability of *Peronospora parasitica* in radish 117
Oryza sativa
Changes in the phenolic contents of rice cultivars towards air pollution exposure 107
Interactive effect of NaCl salinity and gibberellic acid on shoot growth, content of abscisic acid and gibberellin-like substances and yield of the (*Oryza sativa* L var GR-3) 173
O_2 sensitivity
Nitrogenase activity of diazotrophic strains of *Candida tropicalis* 343
Osteosclereids
Differentiation of the seed coat in *Sesbania speciosa* 301
Outer integument
Differentiation of the seed coat in *Sesbania speciosa* 301

Palms
Anatomy of the stems of seedling palms 215
Parasorghum
Sorghum nitidum (Vahl) Pers., occurrence, morphology and cytology 333
Penicillium
Laboratory experiments on competition between two rhizoplane microfungi *Penicillium chrysogenum* and *Trichoderma harzianum* 375
Perennial herb
Competitive fitness of *Centella asiatica* populations raised from stem cuttings and seedlings 239
Pericarp
Seedborne nature of *Peronospora parasitica* in *Raphanus sativus* 255
Peronospora parasitica
Factors affecting germination of *Peronospora parasitica* in radish 113
Production and viability of *Peronospora parasitica* in radish 117
Modes of entry, establishment and seed transmission of *Peronospora parasitica* in radish 369
Peroxidase
Light activation of enzymes in relation to leaf age in *Vigna unguiculata* (L.) Walp and *Zea mays* L. 225
Phenols
Changes in the phenolic contents of rice cultivars towards air pollution exposure 107
Phosphorus limitation
Application of algal assay for defining nutrient limitation in two streams at Shillong 361
Phytomass
Effect of cement kiln dust pollution on black gram (*Vigna mungo* (L.) Hepper) 435
Pineapple
Microfungal species associated with the gut content and casts of *Drawida assamensis* Gates 379
Pinna trace
Vascular morphology of stipe and rachis in some western Himalayan species of *Pteris* Linn. 399
Plant growth
Effect of the carbaryl and 1-naphthol on seedling growth of barley, and on growth and nodulation of groundnut in two soils 11
Plant resources
Distribution of vegetation types in northwest Himalaya with brief remarks on phytogeography and floral resource conservation 263
Plantago L.
Reproductive biology of *Plantago* L. III. Floral adaptation to wind pollination in *Plantago lagopus* L. 393
Pollen analysis
Pollen analysis of *Apis cerana* and *Apis florea* honeys from Adikmet area, Hyderabad 183
Pollen shape
Stability of pollen sterility in cytoplasmic-genetic male sterile lines in rice 101
Pollination
Pollination ecology of *Moringa oleifera* (Moringaceae) 33
Pollination ecology of *Alangium lamarkii* (Alangiaceae) 195
Pollution
Effect of cement kiln dust pollution on black gram (*Vigna mungo* (L.) Hepper) 435
Polymorphism
Numerical and structural inconstancy in the chromosome complements of *Belamchanda chinensis* Dc. (Iridaceae) 205
Polyphenol oxidase
Light activation of enzymes in relation to leaf age in *Vigna unguiculata* (L.) Walp and *Zea mays* L. 225
Protoplasts
Growth and alkaloid synthesis in cell lines of *Catharanthus roseus* obtained through immobilization of cells and protoplasts 211

Pteris
Vascular morphology of stipe and rachis in some western Himalayan species of *Pteris* Linn. 399
Pycreus
Cyperaceae Indiae Australis Precursores: New species and scanning electron microscopic observations in *Pycreus* Sect. *Muricati* 415

Radish
Seedborne nature of *Peronospora parasitica* in *Raphanus sativus* 255
Raphanus sativus
Factors affecting germination of *Peronospora parasitica* in radish 113
Production and viability of *Peronospora parasitica* in radish 117
Modes of entry, establishment and seed transmission of *Peronospora parasitica* in radish 369
Red pepper
Intraspecific variation of nuclear DNA in *Capsicum annum* L. 1
Revised synonyms
Cyperaceae Indiae Australis Precursores: New species and combinations in *Pycreus* Beauv. 423
Rhizoplane
Laboratory experiments on competition between two rhizoplane microfungi *Penicillium chrysogenum* and *Trichoderma harzianum* 375
Rosaceae
Cytology of woody members of Rosaceae 17
Rubiaceae
An embryological approach to the taxonomical status of *Hedyotis* Linn. 31

SEM studies
Cyperaceae Indiae Australis Precursores: New species and scanning electron microscopic observations in *Pycreus* Sect. *Muricati* 415
Salinity
Interactive effect of NaCl salinity and gibberellic acid on shoot growth, content of abscisic acid and gibberellin-like substances and yield of rice (*Oryza sativa* L. var GR-3) 173
Sclerocystis spp
Occurrence of *Sclerocystis* species in semi-arid soils of India 259
Sea
Speculations on niches occupied by fungi in the sea with relation to bacteria 129
Seasonality
Litter production and seasonality in tropical moist forest ecosystems of Uttara Kannada district, Karnataka 139
Seed
Fruit and seed structure in Araceae 61
Seed packing
Effect of domestication on seed packing cost in legumes 337
Seed transmission
Modes of entry, establishment and seed transmission of *Peronospora parasitica* in radish 369
Seedborne
Seedborne nature of *Peronospora parasitica* in *Raphanus sativus* 255
Selenastrum capricornutum
Application of algal assay for defining nutrient limitation in two streams at Shillong 361
Semi-arid soil
Occurrence of *Sclerocystis* species in semi-arid soils of India 259
Sesame
Inheritance of polypetalous corolla mutation in sesame 7
Sesamum indicum
Inheritance of polypetalous corolla mutation in sesame 7
Ω-shaped vascular bundle
Vascular morphology of stipe and rachis in some western Himalayan species of *Pteris* Linn 399
Single-rope floating raft
Raft cultivation of *Gracilaria edulis* (Gmel.) Silva 123
Soil fertility
Cation budget under terrace agroecosystem in Meghalaya in north-east India 23
Soils
Effect of carbaryl and 1-naphthol on seedling growth of barley, and on growth and nodulation of groundnut in two soils 11
Sorghum
Occurrence of *Sclerocystis* species in semi-arid soils of India 259
Sorghum nitidum
Sorghum nitidum (Vahl) Pers., occurrence, morphology and cytology 333
Stability
Stability of pollen sterility in cytoplasmic-genetic male sterile lines in rice 101
Stainability
Stability of pollen sterility in cytoplasmic-genetic male sterile lines in rice 101
Stem
Anatomy of the stems of seedling palms 215
Structural hybridity
Cytology of hardwood 91
Structural inconstancy
Numerical and structural inconstancy in the chromosome complements of *Belamchanda chinensis* Dc. (Iridaceae) 205
Sugarcane rhizosphere
Degradation of α-, β- and γ-isomers of hexa-

chlorocyclohexane by rhizosphere soil suspension from sugarcane 165

Taxonomy
An embryological approach to the taxonomical status of *Hedyotis* Linn. 31
Unguiculariella, a new genus of the family Hyaloscyphaceae (Helotiales) 279
Temperature effect
Degradation of α-, β- and γ-isomers of hexachlorocyclohexane by rhizosphere soil suspension from sugarcane 165
Terrace
Cation budget under terrace agroecosystem in Meghalaya in north-east India 23
Theoretical models
Nutrient acquistion by fungi—the relation between physiological understanding and ecological reality 153
Threats and conservation
Distribution of vegetation types in northwest Himalaya with brief remarks on phytogeography and floral resource conservation 263
Tracheid-bar
Differentiation of the seed coat in *Sesbania speciosa* 301
Translocations
Cytological explorations of Indian woody legumes 319
Trichoderma
Laboratory experiments on competition between two rhizoplane microfungi *Penicillium chrysogenum* and *Trichoderma harzianum* 375
Tropical forest
Litter production and seasonality in tropical moist forest ecosystems of Uttara Kannada district, Karnataka 139

Unguiculariella
Unguiculariella, a new genus of the family Hyaloscyphaceae (Helotiales) 279

Uptake hydrogenase activity
Nitrogenase activity of diazotrophic strains of *Candida tropicalis* 343

VAM fungus
Occurrence of *Sclerocystis* species in semi-arid soils of India 259
Vegetative anatomy
Cyperaceae Indiae Australis Precursores—A novelty in *Eleocharis* R.Br. and its vegetative anatomy 71
Cyperaceae Indiae Australis precursores—Nova species in *Fimbristyle* (L.) Vahl and their vegetative anatomy 77
Viability
Production and viability of *Peronospora parasitica* in radish 117
Vigna sinensis
Boron nutrition of cowpea 311
Vigna unguiculata
Light activation of enzymes in relation to leaf age in *Vigna unguiculata* (L.) Walp and *Zea mays* L. 225

Woody species
Cytomixis in woody species 233

Xenogamy
Pollination ecology of *Alangium lamarkii* (Alangiaceae) 195
Xylocopa
Pollination ecology of *Moringa oleifera* (Moringaceae) 33

Yield
Effect of cement kiln dust pollution on black gram (*Vigna mungo* (L.) Hepper) 435

Zea mays
Light activation of enzymes in relation to leaf age in *Vigna unguiculata* (L.) Walp and *Zea mays* L. 225
